Exploring and Expanding Programs for Young Adults with Learning Differences

Designed for young adults, ages 17-21, Winston Transitions offers an academic program and practical internships with guidance, structure, communication, and the continuous feedback that is a trademark of a Winston Preparatory School education. The Transitions student community is comprised of a diverse group of learners with unique patterns of strengths and needs all of whom need additional work to be prepared for post-secondary programs, or gain further academic, work, and/or life skills.

Completion of this program is an indication of true readiness for further academic, vocational, and/or employment pursuits. The majority of the Winston Transition graduates have enrolled in four-year and community colleges or were hired by their internship placement. The independent experience encourages and challenges the students’ decision making processes and connects them to communities, employers, teams and organizations. Some of our partners include: Deutsch Inc., Lenox Hill Hospital, Scratch DJ Academy, Homes for Homeless, Studio 360, Cassin and Cassin LLP, Housing Works, and Sterling Lord Literistic.

“This program has allowed me to get my life started. Without this program and its great support system it would be so different for me and I would probably be struggling right now! The Transitions program helped me get the job that I have now.”

—Brandon M.
