

Resources for Parents During COVID-19

Updated 4/30/20

As we all adjust to our new realities and attempt to establish new routines and structures, the School and Child Care Search Service wants to share some resources to support you. This list is a collection of resources that we have found or that have been sent to us from various sources. These are not recommendations. We encourage you to explore the sites to determine which ones might be appropriate for your child. We will continue to add to it as we gather more information.

In our care and concern for parents, we recognize that at the moment anything and everything can feel overwhelming—including our list of resources! We encourage you to take your time and move ahead at a pace that works for you.
